# Increase Your Potential With the ISA CAP Associate Certificate Program

The ISA Certified Automation Professional® (CAP®) Associate certificate provides third-party, objective assessment and confirmation of your potential to become an automation professional.

## Certified Automation Professional (CAP) Associate Exam Review Course (EC01)

The Certified Automation Professional (CAP) Associate Exam Review Course (EC01) is an intense review of the field of automation intended to help students in their preparation to take the CAP Associate exam.

**You must meet at least one of the criteria below to be eligible to take the CAP Associate exam:**

- Complete a four-year academic degree in a related technology area
- Complete a two-year technical degree in a related technology area and have one year of work experience in a related technology area
- Five years of work experience in a related technology area
- Successfully complete the ISA CAP Associate Certificate Exam Review course in any of the course formats available

Registration for this course includes the exam fee for the Certified Automation Professional Associate® (CAPA®) Exam.

For more information, please visit our site at [www.isa.org/ec01](http://www.isa.org/ec01).
